- Responsive web design by using React Bootstrap, HTML5, CSS3
- Highly complex components designing by using React with minimum usage of third party NPM Packages
- Designing and using dynamic and reusable components
- Implementation of connectivity with API services by using axios or fetch.
- Pushing and pulling code to GitHub repo
- Design and develop static or dynamic components based on the requirements from product owner.

Achievements:

- Introduced and integrated new features based on user feedback, leading to a 15% increase in overall user satisfaction ratings.
- Successfully implemented responsive design strategies, resulting in a significant improvement in mobile user engagement metrics by 20%.
- Received positive feedback from stakeholders for consistently delivering visually appealing designs that align with brand aesthetics and guidelines

April 2019 -
March 2022

QA Engineer, Netcracker Technology Solution, Hyderabad, India

Project 1: VFGH

Client: Vodafone Hungary

Methodology Used: Agile

Responsibilities:

- Worked on Functional Testing and Build Testing.
- Knowledge on using MIA Tool.
- Worked on Generation of periodic invoice for the customer, rating the Events like Data, voice, SMS, MMS, Roaming using MIA tool.
- Billing the Events using MIA tool.
- Worked on making payment of the customer.
- Worked on creation of Residential and Business Customers.
- Checking Periodic GMP log files and on demand logs files in WINSCEP to analyze the customer details, whether process like MFM, BG, ING, and BDW runs Successful.
- Worked on creation of sales order to select the products required for the customer. Knowledge on checking customer details in database.

Project 2: Merlin-wireless

Client: TELUS

Methodology Used: Agile

Responsibilities:

- Followed Agile for software Development lifecycle in which worked in Scrum.
- Understanding the requirement preparation of test plan, Test execution and Preparation of test Report
- Prepare Test Data for execution in various testing phases through Netcracker products.
- Responsible for Defect Tracking and attended daily sync up call
- Worked closely with BA and DEV Team for quick resolution of Issue.
- Server/Delivery Update using JENKINS.
- Cloud BSS system test execution for PIM configuration. &E2E Testing using Postman

Achievements:

- Received "You Made a Difference" Award: Acknowledged for notable contributions to quality assurance processes, resulting in improved product quality and team performance. Accompanied by a bonus, integrated into salary package.
- Implemented automated testing scripts resulting in a 30% reduction in testing time
- Led the development and execution of comprehensive test plans for multiple projects, resulting in a 15% decrease in post-release defects

Certifications:

Full Stack Web Development

Sep 2023-
Feb 2024

- I have worked on frontend technologies like-HTML5, CSS3, Bootstrap, Tailwind CSS, ReactJs, and JavaScript
- Explored backend technologies like - NodeJS, Express(framework), Database (SQL, MongoDB)
<https://mycourse.app/DuTsYb3t9N56yFvJ6>

Introduction to Structured Query Language (University of Michigan, USA)

Skills: SQL, PostgreSQL, Microsoft SQL Server

<https://www.coursera.org/account/accomplishments/verify/HQKE2XX46SPM>

Programming for Everybody Python (University of Michigan, USA)

<https://www.coursera.org/account/accomplishments/certificate/Y5YQLKQW2KVN>

June 2020

April 2020

Technical Skills:

Languages: C, Python, HTML5, CSS3, JavaScript, ExpressJs, ReactJS, NodeJS

Database Tools: SQL/PLSQL, MYSQL, MongoDB

Tools: Visual studio code, Git, GitHub, Bootstrap, Tailwind, JIRA, Jenkins, Postman, MS office, Excel, PowerPoint

Languages known:

- 0 English: Read, Write, Proficient
- 0 Arabic: Read, Write, Beginner
- 0 Hindi: Read, Write, Proficient
- 0 Telugu: Read, Write, Proficient

Volunteer Experience

- 0 **Mentoring:** Mentored Students or Junior Developers in Programming Languages, Software Development Methodologies or others Technical Skills
- 0 **Tutoring:** Offered Online/Offline Tutorial Services to the Student's Services like Programming Languages, Mathematics Subjects
- 0 **Pandemic Relief Volunteer:** Distributed groceries and essential supplies to individuals and families affected by the pandemic. and collaborated with local authorities and community organizations to identify areas with the greatest need and ensure efficient distribution.
